LES PETITES

The new Les Petites collection designed by Andrea Parisio and Giuseppe Pezzano is dedicated to bathrooms that are small in size but have great personality. Suspended ceramic elements supported by metal structures, in an interplay of horizontal planes and vertical uprights, make Les Petites a design that easily adapts to any environment. A sophisticated and versatile collection where the "greatness" of the object lies in its intrinsic aesthetic and functional value.

Designed to be easily positioned in small spaces, it is available in three variants: a square washbasin (Les Petites 35) and two oval washbasins (Les Petites 46 and 60), all accompanied by a metal structure with a minimalist design, which serves as a practical towel rail and countertop. A solution that enhances the bathroom

environment by transforming the functional element into a decorative one that optimises space.

The essential metal structure – available in Matt Black and Cemento finishes and in the "Acque di Cielo" colour palette – supports, on two different levels, the washbasin and the countertop – both in ceramic and available in the Gloss White finish and in the "Terre" and "Acque di Cielo" colour palettes. The combination of these elements gives rise to different interpretations of a single model, according to the various customisations.

The collection also includes a series of countertop washbasins, with or without tap hole, presented in combination with the new Arcadia mirrors and Luisa drawer units, thus creating new combinations.

La nuova collezione Les Petites disegnata da Andrea Parisio e Giuseppe Pezzano è dedicata alle sale da bagno di dimensioni ridotte ma di grande personalità. Elementi sospesi in ceramica sorretti da strutture metalliche, in un gioco di piani orizzontali e montanti verticali, rendono Les Petites un progetto che si adatta facilmente ad ogni ambiente. Una collezione sofisticata e versatile dove la "grandezza" dell'oggetto sta tutta nel suo intrinseco valore estetico e funzionale.

Pensata per essere facilmente posizionata in piccoli spazi si sviluppa in tre varianti: un lavabo quadrato (Les Petites 35) e due lavabi ovali (Les Petites 46 e 60) tutti corredati da una struttura in metallo dal design minimale, che funge da pratico porta asciugamani e da piano di appoggio. Una soluzione che valorizza l'ambiente bagno trasformando l'elemento funzionale in elemento decorativo a vantaggio dell'ottimizzazione dello spazio.

L'essenziale struttura in metallo - declinabile nelle finiture Nero Matt, Cemento e nella palette cromatica "Acque di Cielo" - sorregge, su due differenti livelli, il lavabo e il piano di appoggio - entrambi in ceramica e disponibili nella finitura Bianco Lucido e nelle palette cromatiche "Terre" e "Acque di Cielo". La combinazione di questi elementi, dà vita a differenti interpretazioni di un unico modello, a seconda delle diverse personalizzazioni.

La collezione include anche una serie di lavamani da appoggio, con o senza foro rubinetto, presentati in abbinamento ai nuovi specchi Arcadia e alla cassettiera Luisa, creando così nuove combinazioni.

L'espressione made in Italy, con cui Cielo vuole accompagnare il proprio marchio, racchiude in sé quei valori che contraddistinguono l'eccellenza del "fare" italiano considerato come un vero e proprio modello di riferimento nel mondo; la qualità del design, la selezione dei materiali migliori, la cura del dettaglio, la conoscenza dell'artigianalità e la ricerca costante dell'armonia tra forma e funzione.

L'ambizione di Cielo è di diventare un laboratorio del vero Made in Italy che possa promuovere la nostra identità culturale ponendo l'uomo al centro del progetto.

IL LABORATORIO DELLA CERAMICA THE CERAMIC WORKSHOP

The expression 'Made in Italy', with which Cielo wants to accompany its brand, encapsulates those values that distinguish the excellence of Italian 'making' considered as a true reference model in the world; the quality of design, the selection of the best materials, the attention to detail,

the knowledge of craftsmanship and the constant search for harmony between form and function.

Cielo's ambition is to become a workshop of true Made in Italy that can promote our cultural identity by placing people at the centre of the project.

MINIMO E TINO MINI

MINIMO AND TINO MINI

Le bacinelle Tino Mini e Minimo Quadrato e Tondo, riprendono delle forme già presenti in gamma ma in dimensioni ridotte. I lavabi Minimo abbinati al Minimultiplo, creano un piccolo microcosmo personalizzabile con le cromie di Cielo, che coniuga perfettamente funzionalità e design.

The Tino Mini and Minimo Square and Round washbasins reflect shapes already present in the range but in smaller dimensions. The Minimo washbasins combined with the Minimultiplo, create a small microcosm that can be customised with Cielo colours, perfectly combining functionality and design.

Un piccolo sistema dalla logica essenziale, composto da una struttura in metallo e dal piano ceramico con la possibilità di abbinare i due lavabi Minimo tondo e quadrato. Le geometrie sono volutamente semplici e lineari in una visione di insieme leggera e rigorosa.

A small system with an essential logic, consisting of a metal structure and a ceramic countertop with the possibility of combining the two Minimo washbasins, round and square. The geometries are deliberately simple and linear in a light and rigorous overall vision.

FORME SEMPLICI DAI DETTAGLI UNICI: SPECCHI LUC, ALEX, ZIP

SIMPLE SHAPES WITH UNIQUE DETAILS: LUC, ALEX, ZIP MIRRORS

La collezione Arcadia si arricchisce di nuove soluzioni di specchi, rispondendo così a tutte le esigenze di spazio e funzionalità. Con o senza luce Led, contenitori e non contenitori. Forme geometriche ma dai dettagli unici che donano un diverso carattere ai nuovi specchi Arcadia.

The Arcadia collection is enriched with new mirror solutions, thus fulfilling all space and functional requirements. With or without LED lights, containers and non-containers. Geometrical shapes but with unique details that give different character to the new Arcadia mirrors.

Luc è uno specchio caratterizzato dalla cornice in vetro e dalla fascia led luminosa sul frontale, disponibile quadrato o rettangolare.

Zip nasce dal gioco di incastro tra due elementi: può essere semplice specchio con una parte fissa e una mobile oppure versione con contenitore, mantenendo lo stesso disegno che ricorda una grande cerniera.

Dall'ampio volume, Alex specchio contenitore, è composto da quattro scomparti che creano un particolare disegno geometrico.

Luc is a mirror characterised by its glass frame and luminous LED strip on the front, available in square or rectangular.

Zip is born from the interplay between two elements: it can be a simple mirror with a fixed part and a mobile part or a version with a container, maintaining the same design reminiscent of a large hinge.

With its large capacity, the Alex container mirror is composed of four compartments that create a particular geometric design.
